

Bänninger Plastic Pressure Pipes & Fittings

Bänninger is a German manufacturer of plastic pressure pipes and fittings which are used in applications worldwide. Their philosophy: Modernity, dynamics and innovation - always aiming to meet the market requirements and being prepared for future developments. Bänninger's products are made from pure raw material to ensure perfect installation every time. Their pipes and fittings have been tested and certified and are thus highly sought after worldwide and meet the audited requirements according to DIN EN ISO 9001, ISO 15874:2008, registered under certificate number 2113/12.N to d 500.

About the BR Dynatherm System

The Dynatherm PP-RCT system is suitable for a number of different applications including:

- Potable hot and cold water supply systems up to 80°C, with temperature spikes of up to 110°C (Subject to pressure / lifetime limitations)
- Plumbing services, Mechanical services, Chilled and Condenser water reticulation
- Industrial liquids and gasses
- Building and district heating
- Geothermal
- General pressure applications up to 20 Bar (290 PSI) at 20°C
- 10 year manufacturer warranty
